

How licensure of Behavior Analysts impacts provision of ABA services in CT

This presentation will review the new CT Behavior Analyst licensing law that went into effect 7/1/18. This law requires that those providing Applied Behavior Analytic services must either be licensed as a Behavior Analyst or be providing services under the auspices of an alternative professional designation that encompasses behavior analysis within its scope of practice. What a scope of practice is, who can/cannot provide services under what conditions, what services can/cannot be delegated by licensed Behavior Analysts, and ramifications for practitioners who do not have behavior analysis delineated within their professional scope of practice will be discussed. Recommendations for DDS service providers, insurance funded services, and school district funded services will be discussed. Information regarding how consumers, employers or others can verify an individual's certification/license status will be provided.

This presentation is provided at no charge and will offer 1.5 CE's for Board Certified Behavior Analysts for a fee of \$10.00. Consumers of ABA services, Behavior Analysts, others who provide services to people with disabilities, and those working for public schools or other agencies who fund ABA services are invited to attend and bring your questions. Go to www.balcllc.org to register. Seating is limited and offered on a first come, first served basis. Early registration is recommended.

Presenters:

Suzanne Letso, M.A., BCBA, Licensed Behavior Analyst in CT, NY & MA and
Lisa Gregory, M.S.

Dates:

September 26th 9:00 – 10:15 am
